

- T14 Main unit x 1
- Non-Polarized Green Heavy Duty Jumper Cable x 1
- Inflation Hose x 1 (Length: 0.4 meter)
- Inflation Adapter x 4
- SAA certified QC3.0 18W Charger x 1
- USB A-C Charging cable x 1 (Length: 1 meter)
- Carry Case x1
- User Manual x1

Key Feature:

- 12V jump starter with 150PSI rated portable air compressor
- QC3.0 18W quick charge feature enables fast charging
- 3.6" Digital smart screen displays colorful instructional icons
- 4 Inflating modes to choose from with preset pressure values
- 4 International unit of measure to choose your country unit
- Supports charging drones, cameras, phones, tablets, and more
- Spark-proof connection design with reverse polarity protection
- Heavy duty case and QC18W SAA charger are included

Technical Specifications:

Peak Current:	2000A
Capacity:	20000mAh/3.7Vdc/74Wh
Battery Type:	12 Volt Lithium-ion battery
Applicable Vehicle:	Up to 8L petrol & 6L diesel
Start Times:	40 Times
Input:	USB-C: 5V/2A 9V/2A
Output 1:	USB-A: 5V/2.4A
Output 2:	USB-A: 5V/3A 9V/2A 12V/1.5A
Screen:	3.6" LED, Display battery level, pressure, inflation mode and unit of measure
Light:	3 Modes - Flashlight/SOS/Strobe
Product Dimension:	Length: 230mm (9.06inch) Width: 118mm (4.65inch) Depth: 73.5mm (2.89inch)
Weight:	2.2Kg (4.9lbs)
Storage TEMP:	-4°F- 158°F(-20°C - 70°C)
Discharge TEMP:	14°F - 122°F(-10°C - 50°C)
Charge TEMP:	32°F - 113°F(0°C - 45°C)
